

## City Intelligence Report

Shanghai, CN - September 2015

### Active Listings

#### Total Active Listings

2,976

#### What is an Active Listing?

We determine whether a listing is active by looking at a number of factors including: whether it had a confirmed booking in the month, if it is currently live on the site, if the host has updated the calendar recently and if the host is actively responding to inquiries.

#### Active Listing Breakdown

# Bedrooms	House	Apartment	Other	Total
Shared Room	12	117	26	155
Private Room	92	1037	91	1220
Studio	14	89	12	115
1 Room	97	772	68	937
2 Rooms	20	304	26	350
3 Rooms	6	119	16	141
4+ Rooms	9	31	18	58
Total	250	2469	257	2976

# Historical Listing Counts

## How to read this chart

This candle stick chart depicts the change in number of advertised listings (all listings found on Airbnb within this region) month over month. The wider green (increasing) or red (decreasing) bars show the cumulative increase or decrease in number of listings from the prior month. The lines above and below the bars show the number of added and removed listings, respectively.

Listing Count Trend - All Listings

Change in number of properties over the last 12 months

	Oct 2014	Nov 2014	Dec 2014	Jan 2015	Feb 2015	Mar 2015	Apr 2015	May 2015	Jun 2015	Jul 2015	Aug 2015	Sep 2015
Start of Month	1058	1175	1281	1362	1465	1574	1730	1948	2229	2572	3099	3729
Start minus Unlisted in Month	1058	1175	1281	1362	1465	1574	1730	1948	2229	2572	3099	3596

# Occupancy Rates

September Median Occupancy
50%

### Median Occupancy Rate

Occupancy is calculated by taking the percentage of total available days in the month that had a confirmed booking. The median is the 50th percentile for this reporting area. Listings that are blocked for the month or are otherwise "inactive" are not included in the calculation.

### How to read this chart

The occupancy rate varies greatly in every area based on location, price and other factors. In order to show the whole picture we place each property into a percentile based on their achieved Occupancy Rate in the last full month. Example: If there were 10 properties in the area, the property with the 9th highest occupancy rate would be in the 90th percentile. In the line chart you can see what the lowest performing to best performing properties were able to achieve.

- High Performing Area - Greater than 60% Median Occupancy
- Mid Performing Area - 40%-60%
- Low Performing Area- Less that 40%

Pricing and overall quality of a listing's photos, text and guest communications have a large impact on individual property performance.

# Occupancy Rates (continued)

### How do we calculate this?

Airdna's technology can determine what dates are actual Airbnb reservation versus which were made "unavailable" by the host. We divide the total amount of booked days by the total number of days available for rent. The above occupancy rates show what size properties are seeing the most confirmed reservations and the least vacancy.

There must be at least six active rentals of each accommodation size to display comparative occupancy rates. If any sections of the graph above is blank, there is not enough data to calculate it. You can use Airbnb to view the calendars of properties in your area of interest to estimate occupancy rates.

# Earning Potential

	Oct 2014	Nov 2014	Dec 2014	Jan 2015	Feb 2015	Mar 2015	Apr 2015	May 2015	Jun 2015	Jul 2015	Aug 2015	Sep 2015	Total

## Earning Potential

Many Airbnb listings aren't rented full-time. The Earning Potential metric measures the performance of properties while they are available for rent and then calculates what they could have made the rest of year by analyzing their historical performance and that of comparable properties. Earning Potential shows the true value of full-time short-term rentals on the Airbnb marketplace.

# Revenue

## Monthly Revenue

Monthly revenue is our best estimate of revenue received from Airbnb bookings. Revenue includes cleaning fees, but not extra guest charges or other additional fees.

We determine revenue of each Airbnb property by looking at what the nightly rate for each available day is directly before a booking is made. We can not determine whether last minute discounts are made or what revenue is for bookings made outside of Airbnb.

This statistic is lower than earning potential because many properties are only available for rent for a small portion of the month.

# Weekly and Daily Demand

### What is RevPAR?

RevPAR stands for Revenue per Available Room. It is a performance metric widely used in the hotel industry. RevPAR is calculated by looking at all available accommodations on a given day and divides the total revenue generated by the total number of listings. RevPAR is the best indicator of seasonality and demand. By displaying the demand for vacation rentals throughout the year, you can use RevPAR to identify unexpected spikes in demand to increase your listing price far in advance. RevPAR can also show you the best time to list your place, or uncover how weekends perform versus weekdays and what local demand is during the holidays.

# Average Daily Rate

Pricing shown here provides an overview of how much the average Airbnb rental was able to charge this month. To receive optimized and automated pricing assistance we highly recommend using [BeyondPricing](http://www.beyondpricing.com/#r=airdna) (<http://www.beyondpricing.com/#r=airdna>)

ADR = Is the Average Daily Rate that an Airbnb unit is booked for during the month. ADR is a standard metric used in the hotel industry and is a better measurement than price because it shows what price guests are actually paying vs. simply what price hosts are advertising.

An easy way to increase your vacation rental revenue is by adding a fold out couch and temporary sleeping accomodations.

One bedrooms make 20% more if they can accomodate 4 guests instead of just 2.

# Airbnb Listing Optimization

## Extra Fees and Discounts

Price and Fee Ranges				
# Bedrooms	# Listings	Daily Price	Cleaning Fee	Security Deposit
Shared Room	155	\$15 -\$19	\$6 -\$8	\$99 -\$130
Private Room	1220	\$28 -\$41	\$8 -\$10	\$105 -\$162
Studio	115	\$57 -\$78	\$8 -\$15	\$113 -\$162
1 Room	937	\$53 -\$74	\$9 -\$16	\$121 -\$162
2 Rooms	350	\$79 -\$113	\$10 -\$16	\$162 -\$243
3 Rooms	141	\$113 -\$162	\$16 -\$24	\$162 -\$200
4+ Rooms	58	\$208 -\$300	Avg \$40	\$162 -\$324

Price range is for the 33rd and 66th percentiles

Additional Fee Usage			
	No Cleaning Fee	No Security Deposit	No Extra Guest Charge
Super Hosts	74%	45%	48%
Experienced Hosts	67%	45%	58%
Novice Hosts	74%	62%	77%

Super Host = Over 25 Reviews, Experienced Host = 10-25 Reviews, Novice Host = Under 10 Reviews

✔ As hosts get more experience they tend to increase cleaning fees and remove security deposits. Act like a pro and remove any additional fees outside of cleaning.

Booking Discounts		
	Weekly Discount	Monthly Discount
Top City Hosts	5% off	12% off

Top 10% based on number of reviews

✔ Weekly and Monthly Booking Discounts for short-term rentals were once in the 25% - 50% off range, but due to the simplification of the booking process on Airbnb, top hosts now offer minimal discounts for extended stays.

# Reservation Settings

Minimum Stay						
	1 Night	2 Nights	3 Nights	4 Nights	5-6 Nights	7+ Nights
Super Hosts	64%	27%	8%	0%	0%	0%
Experienced Hosts	58%	27%	10%	1%	3%	2%
Novice Hosts	72%	12%	7%	1%	6%	4%

**Why is this important?**

Minimum stay requirements of over 2 nights will make achieving >90% occupancy rate difficult. Only set minimum stay requirements if you're looking for bookings for a particular special event/holiday. Over 50% of Superhosts nationally have no min stay requirement.

**Tip**  
Airbnb now allows hosts to set different minimum night stays for any time period. It is highly recommended to set longer minimum night stays for high demand periods over three months in the future. This will improve your average booking value, reduce vacancy during peak times, and minimize undesirable inquiries. Reduce your minimum night stay to 1 night only for dates in the next 30 days. View our blog for more details.

Instant Booking	
Shanghai	
Super Hosts	5%
Experienced Hosts	11%
Novice Hosts	84%

**Enable Instant Book**

Airbnb gives preferential treatment to properties with instant book enabled. You will haggle less, appear higher in search results, and perform better overall.

Cancellation Policy			
	Strict	Moderate	Flexible
Super Hosts	64%	28%	8%
Experienced Hosts	42%	39%	19%
Novice Hosts	23%	23%	53%

The majority of Super Hosts in America have a strict cancellation policy. Start with a flexible cancellation policy and change it to strict after receiving 10 reviews. Cancellations can kill your profitability.

# Host Information

Host Responsiveness		
	Response Rate	Days Since Last Calendar Update
Super Hosts	98%	7
Experienced Hosts	95%	12
Novice Hosts	91%	15

Host Responsiveness is the single most important determinant of successful Airbnb host. It has been proven to be the largest influencer of booking conversions, Airbnb search placement, and overall listing views. If you are serious about becoming a Super Host, nothing less a 100% response rate is acceptable. If you are unable to respond to all messages within one hour it is recommended you sign up for a service to help manage your inquiries.

**Why is this important?**  
80% of the hosts in America have less than 10 reviews. A high percentage of host with over 10 reviews is a great sign of a High Potential Area.  
% Host with 10+ Reviews:

- High Potential = Greater than 30%
- Med Potential = 10% to 30%
- Low Potential = Under 10%

# Ratings

Overall Rating					
	★★★★★	★★★★☆	★★★☆☆	★★★☆☆	★★★☆☆
# of Listings	575	151	133	17	22
% of Listings	37%	10%	9%	1%	1%

Detailed Ratings	
Shanghai	
Accuracy	4.69
Cleanliness	4.58
Commnication	4.82
Location	4.72
Check In	4.76
Value	4.59

Over 95% of listings in America currently have a 4.5 or 5 star rating. Recent changes to the review process have made achieving 5-stars more difficult. Look for ratings to increasingly differentiate the most successful hosts.

# Amenities

Percentage of Properties With Amenities					
	Yes	No		Yes	No
Cable TV	42%	58%	Washer/Dryer	87%	13%
Gym	12%	88%	Air Conditioning	92%	8%
Pool	7%	93%	WiFi	90%	10%
Heating	63%	37%	Free Parking	15%	85%
Pets Allowed	14%	86%	Smoking	23%	77%
Fireplace	3%	97%	Hot Tub	24%	76%
Kitchen	86%	14%	Breakfast	10%	90%

A general rule of thumb for amenities in your area

- Must Have = 80% or greater
- Should Have = 50% to 80%
- Nice to Have = Under 50%

## Top 10 Performing Listings

Below are the Top 10 performing listings in this area over the past 12 months. This list is ranked by total revenue received. Annual bookings is the total number of reservations in the year and reviews is the total number of reviews received all time. If your PDF viewer does not support clickable links, you can view these listing by adding the ID to [http://airbnb.com/rooms/\[ID\]](http://airbnb.com/rooms/[ID])
